PROFESSIONAL SUMMARY

- Dedicated and enthusiastic Computer Science graduate with a strong foundation in web development and programming. Proficient in HTML, CSS, and Figma for wireframing, with additional expertise in Core Java and basic SQL.
- I specialize in creating responsive, visually appealing websites with a user-centric approach, ensuring seamless navigation and optimal user experience.
- Passionate about applying my technical skills in a tech-focused environment and contributing to innovative projects. Eager to collaborate with a dynamic team, adapt to new challenges, and continuously learn to stay ahead in the rapidly evolving tech landscape.

SKILLS

- | | | |
|---------------|--------|-------------------------|
| • JAVA | • HTML | • CSS |
| • JAVA SCRIPT | • SQL | • FIGMA FOR WIREFRAMING |

EXPERIENCE

Technologies Global Pvt.Lmtd, Bangalore

(Aug 2023-Sep 2023)

Role: Intern.

Domain: Artificial Intelligence and Machine Learning. **Project:** Facial Emotion Detection.

- Developed an AI-powered facial emotion detection system, using large datasets to train models for recognizing emotions like happiness, sadness, surprise, anger, and neutrality.
- Gained hands-on experience in data preprocessing, model training, and performance evaluation within the domain of Artificial Intelligence and Machine Learning.

JSPIDERS, Hebbal

(Aug 2024)

Role: Trainee.

Domain: Java full Stack Development.

- Trained extensively in Java Full Stack Development, gaining proficiency in Core Java, SQL, HTML, CSS, and JavaScript for building dynamic web applications.
- Developed hands-on projects that involved end-to-end development, from designing user interfaces to implementing back-end logic and database management.

PROJECTS

Project Title: SafetyNet Miners-IoT Based Web Interface

(Oct 2023-March 2024)

- Created an IoT-based system integrating smart helmets to monitor hazardous gases and temperatures in mining environments.
- Developed a web interface for real-time data visualization and safety alerts to enhance miner safety

Project Title: Women Safety Application

(Jan 2023)

- Developed a mobile application using Java to enhance women's safety by providing emergency alerts, location tracking, and real-time notifications.
- Designed and implemented features to improve security in various situations, focusing on user safety and responsive functionality.

EDUCATION

- **BE (Computer Science and Engineering)** | Bearys Institute of technology Mangalore | 2020-2024.
- **PUC (PCMB)** | MDF Independent science and commerce college sagar | 2020.
- **SSLC** | Govt. High School Kargal | 2018.

CERTIFICATION AND WEBINAR

- Software Engineering and Agile Software development, Infosys
- Attended a one-day Workshop on FOSS (Free and Open Source Software) for Engineers
- Attended a seminar on Trends and Innovations in Information Technology.

LANGUAGES

English, Hindi, Kannada, Malayalam.

PERSONAL INFORMATION

- **Father Name:** T Sainudeen.
- **Gender:** Female.
- **Date of Birth:** 15-10-2001.
- **Nationality:** Indian.
- **Marital Status:** Single.
- **Blood Group:** B+ve.

DECLARATION

I here by declare that all the above mentioned information is true to the best of my knowledge and beleif.
